SAURDAY MORNING APRIL 11, 1863

Union Leagues

The New York Times urges that Union Leagues be formed throughout the country, in order that the Copperhead schemes may be effectually put down, and the Government practically and systematically supported. It thinks that when rogues conspire good men should unite.

The idea above suggested is an excellent one, which we should be glad to see made operative in every loyal State, and especially on the Pacific coast. Recent developments show that the incarnate devil of secession is busy, and that his servants are combined for the accomplishment of treason, and no patriotic man knows how widely and secretly the malicious work has advanced. We do know, however, that the same spirit which suddenly captured and overwhelmed the loyal Border States, is here in the midst of us. There are men here who rejoice at tidings of rebel victories, and who are full of wrath when they hear that the army of the Union is marching on to triumph. They hardly conceal their hopes that the Government may be crushed and the conspiracy of traitors become so successful as to overcome the whole land. They wait only the opportunity to rank themselves under the banner and in the cohorts of rebellion. On the other hand, the friends of Union and the Government are anxious, uncertain, and without that earnest and lofty spirit which their just cause ought to inspire, and which would surely animate them if they fully realized its height and depth, in its length and breadth the solemn importance of this fearful struggle. Questions as to currency, doubts about the fitness of Generals, faulty civil appointments and blunders of the Administration have filled the mind, and insensibly chilled the patriotism of those who at heart love the Union, and desire the prosecution of the war till its purpose is attained, and gained forever. We need, in order to meet and to overcome these causes of present apathy, a revival of Union zeal, a new baptism of patriotism, and an entire consecration of our lives, our wealth, our private judgment, and all that we have, to the service of our country. How shall we secure these, and thus feel that we are part and parcel of the body politic, responsible for its suffering with it, and rejoicing in its triumphs? How can we best prepare our selves for its defense against all the schemes and conspiracies of its enemies? In our judgment, the active energy developed in the formation and operation of Union Leagues will tend greatly to the desired result. Thus, the hearts of patriots will be knit together, their hands will be strengthened, and their hopes and zeal invigorated. Shall we not then have Union Leagues in Oregon? Who will move first in the matter?

HAPPY BUT INEVITABLE—A few days ago, a Federal officer in this State happened to have on hand a considerable sum in coin, and he happened also to receive a draft for his own salary payable in San Francisco, and most likely in paper, but before he received the money for this, an order drawn on him by the Treasury Department, for about \$1,400, happened to be presented, and as he had only coin, and could not buy greenbacks at once, the unfortunate functionary was obliged to come down immediately with the gold, with out waiting to exchange his paper salary for harder and more valuable money. Fancy his profound and quivering emotion! Surely all most sympathize with him. Language cannot do justice to the subject. Curses, not loud, but hearty and deep, were invoked upon the blundering and stupid officials at Washington, who had not allowed him to take his salary from the funds in his own hands, and paid the other party by draft on San Francisco. But there was no help for him, and he did his duty, thus proving that, though failed in his happy expectations, there is at least one public officer in Oregon who sometimes pays out to the Government creditors, without expending himself by exchanging it for currency—a fact which it gives us cause to cherish.

HAWAIIAN COMMISSIONER—We learn that the report of the second rejection of Dr. Mc Bride is unfounded, and that he has received a dispatch by telegraph from his son John informing him that his appointment was confirmed at the special session of the Senate.

We are also authorized to state that the stories that the Doctor proposes to go to Honolulu on horseback and to practice medicine there, upon his special theory, are entirely untrue, and were started for a malicious purpose. He will devote himself exclusively and with peculiar ability to the duties of his official position.

The Hawaiian says that the Deschutes railroad is rapidly approaching completion. All the grading is finished and the rails are down for a distance of twelve miles. This leaves another and a half in the rails are to be laid. At the present rate of progress, the rails will be put down before the close of next week and within ten days the locomotive will pass over the whole road. With this, and the new road at the Cascades in a working order, the facilities for trade and travel on the Columbia river will be all that can be desired.

By Overland Telegraph.

(SPECIAL DISPATCH TO THE OREGONIAN.)

TAKEN FROM THE BARR.

Dates to April 8th.

MEXICO, April 11.—It is rumored that a number of the rebel forces, constituting a large force, have been driven from the mountains of Mexico, and are now in the hands of the Federal forces.

AN EXPEDITION OF REBELS, Hagen and Hagen, started for Mexico, at ten o'clock, to attempt to capture the rebel forces at that place. One hundred cavalry, and a number of infantry, were sent to meet them. The rebels were killed and wounded, and the cavalry captured a number of the rebels. The rebels were killed and wounded, and the cavalry captured a number of the rebels.

The MORNING OREGONIAN has a larger SUBSCRIPTION LIST than any other Daily published in this City.

New Steamer Between the Cascades and Dulles.—The Oregonian just published the O S N Company to run between the Cascades and Dulles has been taken up to the Dulles for fuel touches, and will soon be running regularly. Her length is 185 feet, breadth of beam 28 feet, and depth 8 feet. She has three fine boiler, and two 18 inch cylinders. She can easily carry 500 tons and will have a large room for three hundred passengers. Her builder, Capt. Farnham and her crew think she has every requisite to make her the best boat on the river. If so, the public will have new cause to admire the enterprise of the Company and to reward it by patronage—when there is no cheaper way of traveling and forwarding freight.

The Zoo Zous.—The Zoo Zous met at the hall last evening and elected the following: For the term of three months: Captain J. A. Barlow, 1st Lieutenant A. E. Williams, 2nd Lieutenant R. H. Cardwell, Orderly Sergeant J. N. Plummer, 1st Sergeant, Wm. McNamara, 2nd Sergeant, J. R. Wiley, Secretary C. E. Tubbs. This military company has been in existence but a very short time, and already numbers thirty members, all young men, and present a very fine appearance. They will muster, F. N. Plummer, shows a perfect knowledge of the manual exercise and will soon have the company fit enough to appear for a public parade. They will conclude the main feature in the next Fourth of July celebration, if they will only persevere in their good work.

Accidental Drowning.—A Frenchman, recently in the employ of Mr. H. S. Jacobs, of this city, fell off of Jacobs' wharf, on Wednesday evening, while under the influence of liquor and was drowned. His fall was observed by a little girl from a window of the Monitor Hotel, who related the circumstance to some one, who, believing that she was mistaken, no attention was paid to what she said. The body was found yesterday morning under the wharf, and a coroner's jury being called, a verdict of "accidental drowning" was returned.

Medical Board.—We understand the Medical Board for the examination of a license for appointment in the Medical Department of the volunteer service will convene at Fort Vancouver, on Monday next. The board consists of Doctors Chase and Hogg, of this city, and Doctor Gibson, of this city.

Oregon Iron Works.—Jones, Clay & Co., of Oregon Iron Works in this city, advertise and improved horse power, and are prepared to manufacture everything that can be produced in a first-class foundry.

Auction.—Don't forget Richardson's auction sale, at 10 a. m. to-day, of a large lot of household and kitchen furniture, provisions, etc., etc. All those in want of articles about the house will do well to attend, as the articles offered will be likely to go very cheap.

The "arbitrary arrests" at Alcatraz take things philosophically. The "arbitrary arrests" at Alcatraz take things philosophically. The "arbitrary arrests" at Alcatraz take things philosophically.

It is stated that, with one hundred and fifty dollars presses, the Treasury Department are not able to print enough greenbacks in two weeks of a day to pay the expenses of the Government for one day.

The Express Eugene is said to play billiards at all the perfection of an expert, and to have the beauty of a scorpian. Her May says the Queen of Britain, finds billiards not only a good consolation, but a most favored recreation.

Three thousand seven hundred and eighty soldiers, and five thousand women, orphan children, sisters and mothers have made applications for pensions since the 1st of July, and two hundred and sixty-four in the navy, making total nine thousand three hundred and thirty-four.

Foreign travel is now very much restricted. The various rates of exchange prevent many from going abroad who would otherwise do so. There are more to Europe, therefore, unless naval or military victories should restore our country to something like its original value, during the coming spring, be almost entirely unknown.

Slavery is becoming decidedly unfashionable in England. Russia has washed her hands of it. England's aristocracy begins to turn up its nose at it, and by a recently published order it is decreed by the Spanish Government that slaves going with their Cuban masters to the United States North, or to any other free country, become thereby free the same as if they had gone to Spain.

While every schooner captured by the Confederates offers occasion for a small panic in the newspapers, we are apt to forget that something has been and is being done on the other side. An official report just made reveals the fact that already 118 prize cases have been decided, the amount of sales being over \$2,000,000, of which about 80 per cent can be divided. There have been in all over 100 vessels taken, 30 steamships, 10 ships, 1000, 224 schooners, 22 sloops, 10 barkes and 52 smaller boats.

In this city, April 10th Samuel Bennett, aged twenty, is invited to attend the funeral today at the residence of his brother James.

of the

Healed the Skill of Physicians.

Developed life and animation, dispelled nervousness,
no thinking at the stomach, wandering pains,
away of a strength, extreme debility and lifelessness, he
of the stomach, the unpleasant dreams, that pain-
nagers and death a boon. Dr. Van Dant, with his
of exciting the Electro-Galvanic current, together
of California, will restore you to complete health,
the recovery of all bodily and mental infirmities, and
your family and society.

All the world over

wherever disease exists, whether special to the ad-
of climate or common to all regions—epidemic or rare,
of the body or of non-consumption—it is as easy
to restore the ELLECTRO-GALVANIC current as to
in California, as it is to give food to the starving
of steel cut is based upon a series of facts extending
of the means, and the results are so certain, that the
of principle of science, no rule of experience, can
any will be known cause, rests upon facts sure and
of the means, and those which underlie the scientific
of reputation. Ellectro-Galvanic treatment is the
of the body fully directed (mental and physical)
of preparation sought, antiseptic, wondrous pains of
of the disease, and the results are so certain, that the
of disease, the result of scrofula or cutaneous eruptions of the

None Need Despair of Relief.

If you have others which will not lose—pains that can
not be removed—melancholy which you cannot shake off
of the body, you cannot regain—depression of spirits
for which you seek relief—no matter how long you
of sleep—burden that languishes for want of cheer-
of which no society can find—surprise which no man

and the safety with which he administers his care and of cheerful exultation together with his remedy, which he applied to the requirements of climate and of the soil, as a source of complete and rational removal of all bodily and mental infirmities, within the scope of a few days and man to renew.

The Eye and Ear Diseases.

It would not be forgotten by the eye and ear sufferers that Dr. Farnold has made these affections an especial study, and that he has been largely successful in curing them. The plan for that branch of his treatment is so simple, and so free from troubles as purely disease without action, and is cured by his electro-magnetic therapy—no eye medicine, no salve, no cautery, no surgery, but by the electric current of the cylinder, where the disease is passing and burning noise in the ears, blindness, etc. All cures are carefully done on those delicate organs of sight.

Office—corner of Washington and 4th streets, San Francisco.

TO THE PUBLIC

OF THE

PACIFIC COAST

HOSTETTER'S STOMACH BITTERS

THE LARGEST AND CONSTANTLY INCREASING DEMAND FOR HOSTETTER'S CELEBRATED STOMACH BITTERS on the Pacific coast renders it the especial desire of manufacturers and importers to place their legitimate agents in the West of the Rocky Mountains fully on their guard against the IMITATIONS and COUNTERFEITS which have recently been introduced in the market. For this reason the Pacific coast, by IMPORTERS who have obtained the great LICENSURATIVE privilege of selling the genuine Hostetter's Bitters, is equipped with the means of detecting by selection the most perfect and reliable of the STOMACH BITTERS. Some dealers, however, might have been expected here to mislead the public by offering for sale a cheap and inferior imitation, for the pure, use of sharing in the pleasure of the people, and the vast revenue to be realized in this line, and that the passer of anonymous word to word, as the flyer, the makers and vendors of COUNTERFEIT HOSTETTER'S BITTERS stand on the same moral level as the purveyor of adulterated and impure wine. The public are cautioned not to purchase any preparation purporting to be HOSTETTER'S BITTERS unless it is
